**INDEPENDENT AUDITORS' REPORT**

March 8, 2011

Honorable Mayor and Members of the City Council  
City of Jacksonville, Alabama

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of City of Jacksonville, Alabama as of and for the year ended September 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Jacksonville, Alabama's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

The financial statements referred to above include only the primary government of the City of Jacksonville, Alabama, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the City's legal entity. The financial statements do not include financial data for the City's legally separate component units, which accounting principles generally accepted in the United States of America require to be reported with the financial data of the City's primary government. As a result, the primary government financial statements do not purport to, and do not, present fairly the financial position of the reporting entity of the City of Jacksonville, Alabama as of September 30, 2010, and the changes in its financial position and its cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

## INDEPENDENT AUDITORS' REPORT – (Continued)

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the City of Jacksonville, Alabama as of September 30, 2010, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 8, 2011, on our consideration of the City of Jacksonville, Alabama's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

City of Jacksonville, Alabama has not presented a management's discussion and analysis that accounting principles generally accepted in the United States has determined is necessary to supplement, although not required to be a part of, the basic financial statements. The budgetary comparison information on page 29 is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Jacksonville, Alabama's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET  
TO THE STATEMENT OF NET ASSETS  
SEPTEMBER 30, 2010**

Total fund balances for governmental funds \$ 8,731,578

Total net assets reported for governmental activities in the statement of net assets is different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. Those assets consist of:

Governmental capital assets	44,632,584	
Less: Accumulated depreciation	<u>(30,463,458)</u>	
Total Capital Assets		14,169,126

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities.

Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities both current and long-term are reported in the statement of net assets.

**CITY OF JACKSONVILLE  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2010**

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Organization**

The City of Jacksonville, Alabama was incorporated in 1934 under the laws of the State of Alabama. The City provides and accounts for in these financial statements the general government, police protection, fire protection, emergency medical service, a storm drainage system, street maintenance, a parks and recreation system, rubbish and trash collection, library services, educational programs, industrial development programs, Retired Senior Volunteers Program, inert landfill, and community development programs. All of these are included within the primary government entity.

**Reporting Entity**

The financial statements of the City have been prepared in conformity with the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board (GASB). In June 1999, GASB issued Statement No. 34, *Basic Financial Statements- and Management's Discussion and Analysis – for State and Local Governments*. This Statement was developed to make annual reports easier to understand and more useful to the people who use government financial information to make decisions. The City has adopted GASB Statement No. 34 for the fiscal year ended September 30, 2004 and all future years then ended.

As required by the accounting principles in the United States, these financial statements present the primary government ("the City") and its discretely presented component units, entities for which the government is considered financially accountable. Because there is a financial burden or benefit from the entities, they are considered governmental fund type and component units and are reported in a separate column in the government-wide statements to emphasize that they are legally separate from the primary government. Each discretely presented component unit has a September 30 fiscal year-end.

Jacksonville City Board of Education is reliant upon the City for tax revenue collections and for bond issues because the Board of Education is precluded from issuing bonds directly.

Jacksonville Water Works, Gas & Sewer Board provides services for the citizens of the City of Jacksonville, Alabama.

**CITY OF JACKSONVILLE  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2010**

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**Related Organizations**

The City of Jacksonville is also responsible for appointing a voting majority of the boards of other organizations, but the City's financial accountability for these organizations does not extend beyond making the appointments. The City appointed a voting majority for Arts Council, Community Development Board, Industrial Development Board, and Planning Commission. In fiscal year 2010 the City appropriated \$500 to the Arts Council and provided the Planning Commission with a place to meet. These organizations are related organizations that have not been included within the City's financial statements.

**Joint Venture**

As defined in GASB Statement No. 14, a joint venture is a legal entity or other organization that results from a contractual arrangement and is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain (1) an ongoing financial interest or (2) an ongoing financial responsibility. The Cities of Jacksonville and Piedmont have partnered in the operation of an Inert Landfill located between the two cities. Details of this joint venture are disclosed in Commitments and Contingencies note.

**Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the City and its component units. The effect of interfund activity has been removed from these statements. The City as the *primary government* is shown separately from its two legally separate component units. The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function; program revenues include (a) charges to customers who purchase, use, or directly benefit from goods, services, or privileges, provided by a given function, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. General revenues include taxes and other items not included in program revenues. The City does not allocate indirect expenses.

**CITY OF JACKSONVILLE  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2010**

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this focus and basis, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of when the cash is received or expended. Property taxes are recognized as revenues when the enforceable legal claim has occurred, grants and similar items are recognized when all the eligibility requirements of the providers have been met. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

All governmental funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. The City considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures are recorded when the liability is incurred, consistent with accrual accounting. Debt service expenditures, claims and judgments, as well as expenditures related to compensated absences are recorded only when payment is due.

The City reports the following major governmental fund:

The General Fund is the City's primary operating fund and accounts for all financial resources except those required to be accounted for in other funds.

GASB Statement No. 20 requires that each government make elections concerning proprietary funds. The City elected to apply Financial Accounting Standards Board (FASB) pronouncements and interpretations issued before or on November 20, 1989, unless they conflict with or contradict GASB pronouncements.

**CITY OF JACKSONVILLE  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2010**

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**Deposits and Investments**

The City's cash is considered to be cash on hand and demand deposits.

The City may invest in instruments authorized by Section 11-81-19 through 11-81-21, Code of Alabama, 1975, as amended. The City adopted Resolution 610, Investment Policy, on November 25, 1996, which further classifies funds, defines their objectives, specifies maturities, and assigns authority and responsibility for the investment of funds.

**Interfund Receivables and Payables**

Activity between funds that are representative of lending / borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to / from other funds". Flow of cash or goods from one fund to another without a requirement for repayment is reported as interfund transfers.

**Inventories**

Inventory shown in the General Fund consists of gasoline held for consumption and is valued at cost on a first-in, first-out basis. All other items purchased for consumption are recorded as expenditures of the specific fund and are not inventoried.

**Other Assets**

Other assets totaling \$84,305 involve the capital contribution of the municipality for its membership in the Alabama Municipal Insurance Corporation. This money is held in an escrow account at Union Bank and Trust Company in Montgomery, Alabama. The remaining \$146,786 consists of bond issuance discount and issuance costs. These will be amortized over the life of the bond.

**Capital Assets**

In the government-wide financial statements, capital assets are valued at historical cost or estimated historical cost if actual is unavailable. Donated capital assets are valued at their estimated fair market value on the date donated. The City capitalizes assets with a cost of \$5,000 or more as purchase and construction outlays occur.

**CITY OF JACKSONVILLE  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2010**

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**Capital Assets – Continued**

Prior to October 1, 2001, government funds' infrastructure assets were not capitalized. In accordance with GASB Statement No. 34, infrastructure has been capitalized retroactively to 1980 using estimated historical costs as of September 30, 2007.

Depreciation is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	20-40 years
Improvements	40 years
Machinery and Equipment	5-10 years
Automotive Equipment	5 years
Office Equipment	3-10 years

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures upon acquisition. Bond discounts, premiums and issuance costs are treated as period costs of the year of issue.

**Compensated Absences**

The City follows Governmental Accounting Standards Board Statement No. 16, *Accounting for Compensated Absences*, which requires that accrued liabilities for future vacations and sick leave be recorded to the extent the future leaves (1) relate to rights attributable to employee services already rendered, (2) relate to rights that vest or accumulate, (3) where payment is probable and (4) where amounts can be reasonably estimated.

The liability for these compensated absences is recorded as long-term debt in the government-wide financial statements. The current portion of this debt is estimated based on historical trends. In the governmental fund financial statements, amounts that would normally be paid with expendable available financial resources are recorded in the General Fund, and the amounts considered non-current are held in the long-term debt account group. Amounts paid or payable within sixty days are deemed to be payable from expendable financial resources. Employees may accumulate and carry over at their anniversary dates the equivalent of one year's accrual of annual leave.

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**Compensated Absences – Continued**

No limit is placed upon the number of sick leave hours that may be accumulated and used for absences, but only 25% of the accumulated hours with a cap of 500 hours are available for reimbursement upon retirement with ten years service. The accumulated value of annual and sick leave as of September 30, 2010 is \$312,072.

**Long-Term Obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognized bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**Fund Equity**

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Fund balance is classified as reserved or unreserved. Designations of fund balance represent tentative management plans that are subject to change. In the statement of net assets, equity is classified as net assets and displayed in three components:

*Invested in capital assets, net of related debt* – Consists of capital assets, including restricted capital assets net of accumulated depreciation, and is reduced by outstanding balances of any bonds and mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

**CITY OF JACKSONVILLE  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2010**

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**Fund Equity – Continued**

*Restricted net assets* – Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) the City's own laws through its enabling legislation and other provisions of its laws and regulations.

*Unrestricted net assets* – All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

The City's policy is first to apply restricted resources and then unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

**Interfund Transactions**

During the course of normal operations the City has numerous transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and debt service. Interfund transfers are reported as other financing sources / uses in governmental funds. The government-wide statements eliminate interfund transfers and receivables / payables as reported within the segregated governmental activities column. Only transfers and receivables / payables between the two columns appear in this statement, which zero in total.

**NOTE C – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**Budgetary Accounting**

The annual budget for the City is adopted on a basis consistent with generally accepted accounting principles. The fiscal year is a twelve-month period beginning October 1. The annual budget includes all general revenues and expenditures. The City adopted the annual budget for the year ending September 30, 2010; however, throughout the year, the Council amends the budget as needed. The budgeted amounts in this report are as originally budgeted as of September 30, 2010.

The General Fund Schedule of Revenues and Expenditures--Budget to Actual present a comparison of budgetary data to actual results of operations for which annual operating budgets are legally adopted. These funds utilize the same basis of accounting for both budgetary purposes and actual results. At the end of each fiscal year, unexpended and unencumbered appropriations are closed into the fund balance accounts. At the start of the next fiscal year all encumbrances outstanding at year end are reappropriated in the new budget and therefore reestablished. Capital Project Funds are budgeted over the life of the project and adjusted as necessary and are not on an annual basis; therefore, budgetary data for these funds have not been presented in the accompanying combined financial statement.

**NOTE D – CASH AND INVESTMENTS**

Cash consists of checking and savings. At September 30, 2010, the carrying amount of the City's cash was \$4,375,785. The City's depositories are all designated by the Alabama State Treasurer as qualified public depositories under the Security of Alabama Funds Enhancement Act (SAFE). The enactment of the SAFE program changed the way all Alabama public deposits are collateralized. Each qualified public depository

**CITY OF JACKSONVILLE

**NOTE D – CASH AND INVESTMENTS – Continued**

(QPD) is required to hold collateral for all its public depositories on a pooled basis in a custody account established by the State Treasurer as a SAFE administrator. In the unlikely event a public entity should suffer a deposit loss due to QPD insolvency or default a claim form would be filed with the State Treasurer who would use the SAFE pool collateral or other means to reimburse the loss.

The cash deposits held at financial institutions can be categorized according to three levels of risk. These three levels are as follows:

- Category 1* Deposits which are insured or collateralized with securities held by the City or by its agent in the City's name.
- Category 2* Deposits which are collateralized with securities held by the pledging financial institutions trust department or agent in the City's name.
- Category 3* Deposits which are not collateralized or insured.

Based on the three levels of risk, the City's cash deposits are classified as Category 1 deposits.

Investments consist of funds with a maturity date greater than three months. All of the investments that have a maturity date of one year or less are current, and investments that have a maturity date greater than a year are considered noncurrent. At September 30, 2010, the City's investments consisted of \$3,610,712 in Certificates of Deposit and securities invested in certificates of deposit.

**Due From Other Governments**

Due from other governments at September 30, 2010 was \$151,003 and consists of taxes and grants due to the City from other governmental entities.

**Outstanding Warrants**

Outstanding warrants have not been recorded on the books of the City. The warrants consist of all outstanding payments due the City from individuals. The amount of collectible warrants is undeterminable at this time. The total outstanding warrants at September 30, 2010 were \$443,971.

**Property Tax**

Property taxes are levied as of October 1 of each year on property assessed the preceding October 1. The taxes are due on October 1 and become delinquent on the lien date of January 1. Billings are mailed out on October 1 of each year. Property taxes are received monthly from Calhoun County. Taxes that are not both available and measurable are not accrued. These include property taxes, business licenses and franchise taxes.

**NOTE J – LONG-TERM DEBT**

**Bonds and Warrants**

The City issued 2007 Series General Obligation Bonds for refunding of the 2000 A bond issues in May 2007. The bonds are direct obligations of the City, and the full faith and credit of the City is pledged against the bonds. The bonds outstanding at September 30, 2009 are 2000 B Series General Obligation Warrants, due semi-annually at rates ranging from 4.50% - 4.85% per annum, maturing September 30, 2010; and 2007 Series General Obligation Warrants, due semi-annually at rates ranging from 3.50% - 4.15% per annum, maturing September 1, 2036. The balance at September 30, 2010 were \$4,385,000.

On July 24, 2000, the City Council approved participation with the East Central Alabama Industrial Development Authority along with nine other cities and four counties. The Authority issued \$15,475,000 of Special Obligation Bonds to provide infrastructure for the Honda plant located at Lincoln, Alabama. First Commercial Bank administers the bond agreement (Honda Funding Agreement). The City agreed to make annual payments of principal and interest on February 1 of each year beginning 2001 and ending 2015 of \$182,480 with each annual payment approximating \$12,150. The balance at September 30, 2010 was \$52,664.

In May of 2007 the City issued the Series 2007 Bond Issue. Proceeds from the bond issue were used to establish an escrow fund to satisfy the requirements of the Series 2000 A Bond Issue. The remaining funds are to be used for capital improvements consisting of remodeling or renovation of various facilities. Cash in the amount of \$3,849,282 was deposited with an escrow agent pursuant to an escrow agreement. The maturities of these securities and related earnings thereon are expected to provide sufficient cash flow to meet the debt service requirements of the defeased Series 2000 A Bonds as it matures. This transaction effectively released the City from its obligation to repay the defeased Series 2000 A Bonds and constitutes an in-substance defeasance.

The debt activity for the governmental activities of the City for the year ended September 30, 2010 is as follows:

	Beginning Balance 10/1/09	Loan Proceeds	Principal Paid	Ending Balance 9/30/10	Interest Paid

**NOTE K – RETIREMENT**

**Plan Description**

All full-time employees are members of the Employees' Retirement Systems of Alabama. Membership is mandatory for covered or eligible employees of the City. Benefits vest after ten years of creditable service. Retirement benefits are calculated by two methods with the retiree receiving payment under that method that yields the highest monthly benefit. The methods are (1) Minimum Guaranteed, and (2) Formula, of which the Formula method usually produces the highest monthly benefit. Under this method, retirees are allowed 2.0125% of their average final salary (best three of the last ten years) for each year of service. Disability retirement benefits are calculated in the same manner. Pre-retirement death benefits in the amount of the annual salary for the fiscal year preceding death are provided to members of the plan.

**CITY OF JACKSONVILLE  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2010**

**NOTE K – RETIREMENT – Continued**

The Employees' Retirement Systems was established as of October 1, 1945 under the provisions of Act 515, Acts of Alabama 1945, for the purpose of providing retirement allowances and other specified benefits for state employees, state police and on an elective basis to all cities, counties, towns and quasi-public organizations. The responsibility for general administration and operation of the Employees' Retirement Systems is vested in the City of Jacksonville, Alabama. Benefit provisions are established by the Code of Alabama 1975, Sections 36-27-1 through 36-27-103, as amended, Sections 36-27-120 through 36-27-139, as amended, and Sections 3627B-1 through 36-27B-6. Authority to amend the plan rests with the Legislature of Alabama. However, the Legislature has granted the Employees' Retirement System Board authority to accept or reject various Cost-Of-Living Adjustments (COLAs) granted to retirees.

The Retirement Systems of Alabama issues a publicly available financial report that includes financial statements and required supplementary information for the Employees' Retirement Systems of Alabama.

An Annual Report may be obtained from the Retirement Systems of Alabama

**NOTE L – RISK MANAGEMENT**

The City of Jacksonville is exposed to various risks of loss related to torts, theft, errors and omissions, job-related illnesses and injuries, and natural disasters. Risk management is the process of managing the City's activities to minimize the adverse effects of certain types of losses and to obtain finances to provide for or restore the economic damages of those losses. The City maintains insurance coverage with the Alabama Municipal Insurance Corporation. The City believes the coverage is adequate to preclude any significant risk exposure.

**NOTE M – COMMITMENTS AND CONTINGENCIES**

The Cities of Jacksonville and Piedmont are joint participants in an inert landfill located about halfway between the two cities. The City of Jacksonville maintains the bank account and sends out invoices to the customers and covers all payroll and liabilities. At the end of each fiscal year the City receives 10% of the yearly landfill receipts for administering the landfill fund. The net amount is accrued in an account for one half of the profit payable to the City of Piedmont. Once the landfill is closed, Piedmont will receive their portion of the income for the landfill. If any losses are in excess of the total income in the accrued account, Piedmont is required to pay at that point in time for their portion of the loss.

The City entered into a Long-Term Funding Agreement with the East Central Alabama Industrial Development Authority to provide funds to pay the agency's bonded indebtedness for development of the Honda Project in Lincoln, Alabama. Details of this agreement are disclosed in Note – I Long-term Debt.

**CITY OF JACKSONVILLE  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2010**

**NOTE M – COMMITMENTS AND CONTINGENCIES – Continued**

The City is a defendant in various litigations of which legal counsel and City management is of the opinion that none will have a material adverse effect on the financial statements of the City. These actions include both asserted and unasserted claims. The City's legal counsel has advised that damages on any asserted claims, should an unfavorable judgment be reached, will be within the limits of the City's insurance coverage and therefore should not impact upon municipal assets. The City's maximum liability is estimated to be the \$5,000 insurance deductible for claims. No accrual has been included in these financial statements for this matter.

**NOTE N – CLOSURE AND POST CLOSURE COST**

State and federal laws and regulations require the City to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. The Cities of Jacksonville and Piedmont and Calhoun County were joint participants in a sanitary landfill. The landfill has been closed since 1992. The City maintains and monitors the site and charges Calhoun County and City of Piedmont for one-third of the costs and 5% above expenses for maintaining the site. The City is paid annually for the costs of maintaining the site.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS**

Honorable Mayor and City Council  
City of Jacksonville, Alabama

We have audited the financial statements of governmental activities, each major fund, and the aggregate remaining fund information of the City of Jacksonville, Alabama as of and for the year ended September 30, 2010, which collectively comprise the City of Jacksonville, Alabama's basic financial statements and have issued our report thereon dated March 8, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Jacksonville, Alabama's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Jacksonville, Alabama's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Jacksonville, Alabama's internal control over financial reporting.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS – Continued**

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City of Jacksonville, Alabama's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City of Jacksonville, Alabama's financial statements that is more than inconsequential will not be prevented or detected by the City of Jacksonville, Alabama's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the City of Jacksonville, Alabama's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Jacksonville, Alabama's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS –(Continued**

We noted certain matters that we reported to management of City of Jacksonville, Alabama in a separate letter dated March 8, 2011.

This report is intended solely for the information and use of management, City Council, others within the entity and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
